To whom it may concern,

## Ref. Dual Metallising Ltd

ERI Ltd have a long established trading history with Dual Metallising Ltd during which time they have provided excellent support in the fields of small injection mouldings and decorative surface finishing. They have proved themselves to be flexible, responsive and competitive whilst supplying a quality product and service. As a customer we have "leant" on their expertise on numerous occasions and I am sure will continue to do so.

I would have no hesitation in recommending Dual Metallising Ltd as a knowledgeable and reliable supplier who would be an asset to any company's supplier base.

Yours faithfully,

Phil Collier  
Purchasing Manager  
ERI Ltd.
